

LIBRARY CORNER

September 2018

As the new school year begins, I would like to welcome all students and families! I look forward to seeing previous students, meeting students new to the Lord Tweedsmuir community, and connecting with both students and families during the open house in September, the Scholastic book fair in October, and other events throughout the school year.

As the teacher-librarian, I have the privilege of both collaborating with teachers, as well as providing students with regular access to books and library time. I aspire to build students' information and digital literacy skills, to introduce many types of text, and to nurture a love for reading in all of our students. This year, in addition to sharing the learning that takes place in the library on twitter (@TweedsLibrary), I will also be contributing to classroom FreshGrade accounts.
