Parenting in the Digital Age

Join us for an informative and practical evening with Sharon Selby, Registered Clinical Counsellor and Author, as she helps parents navigate the challenges of raising children in today's rapidly changing digital world.

Social media, gaming, smartphones, tablets, algorithms and rapidly evolving AI are shaping our children's lives in ways that can be difficult for parents to understand — and even harder to keep up with.

During this timely presentation, Sharon will explore some of the risks and negative influences children and teens may encounter online and how technology can affect:

- Mental health and emotional well-being
- Body image and self-esteem
- Attention and concentration
- Sleep
- Friendships and relationships
